# Why DDI as Linked Data?

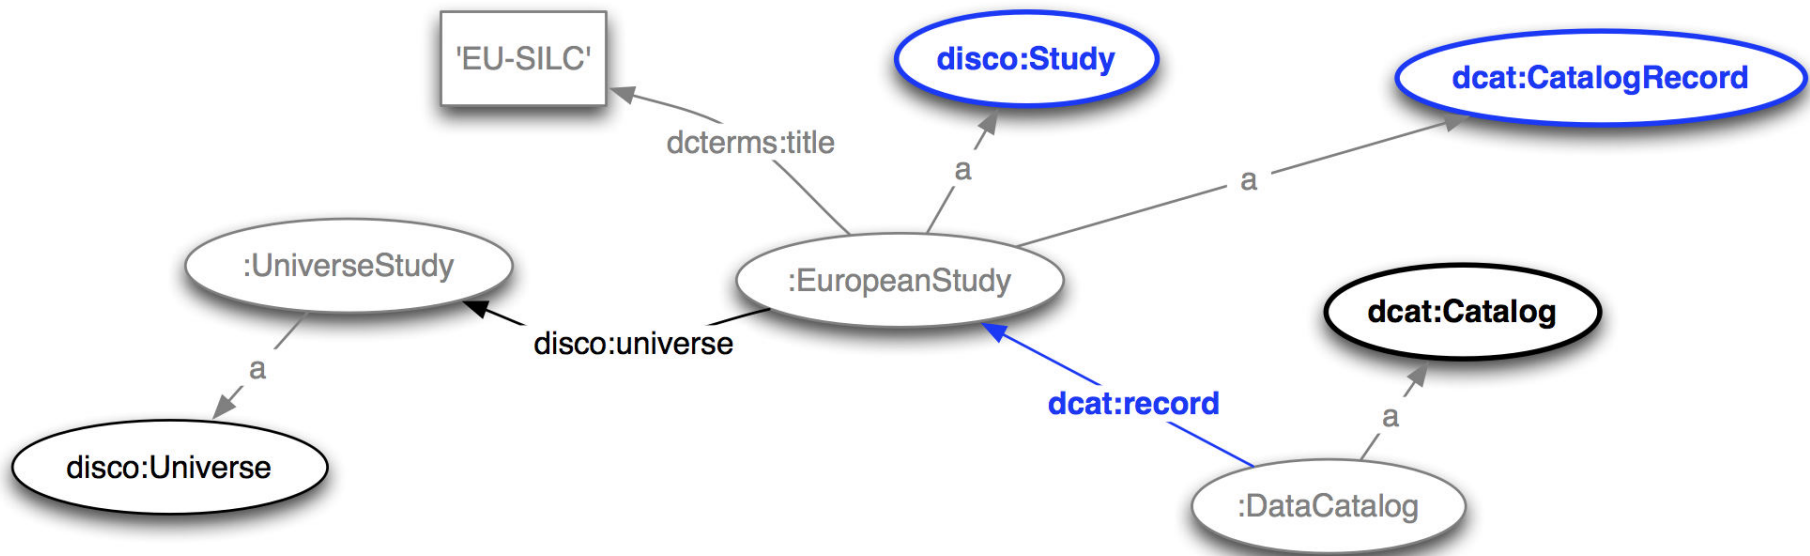

# Overview

Where  
to **search** for  
**data?**

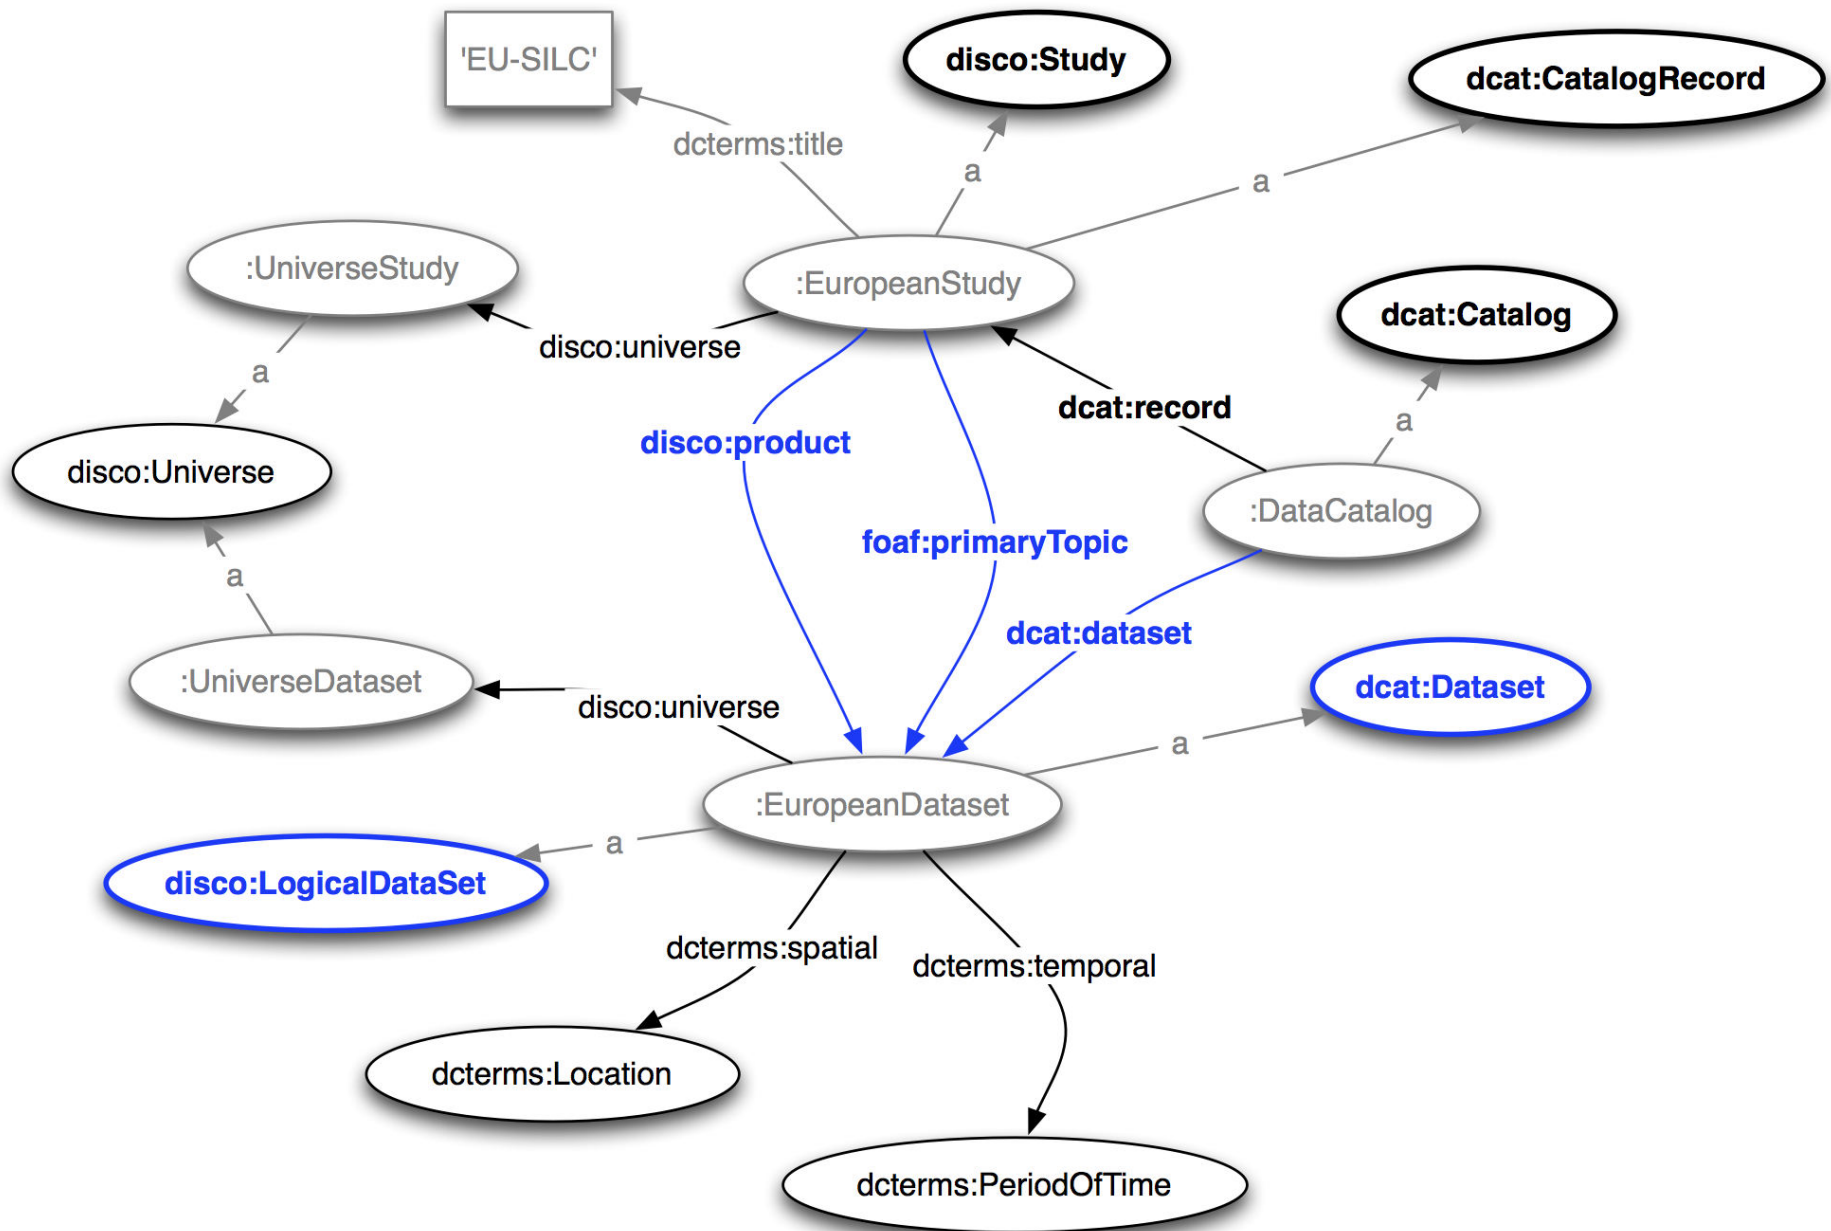

Which  
**microdata** does exist  
according to specific  
**metadata?**

Which **datasets**  
are **associated** with the  
**microdata?**

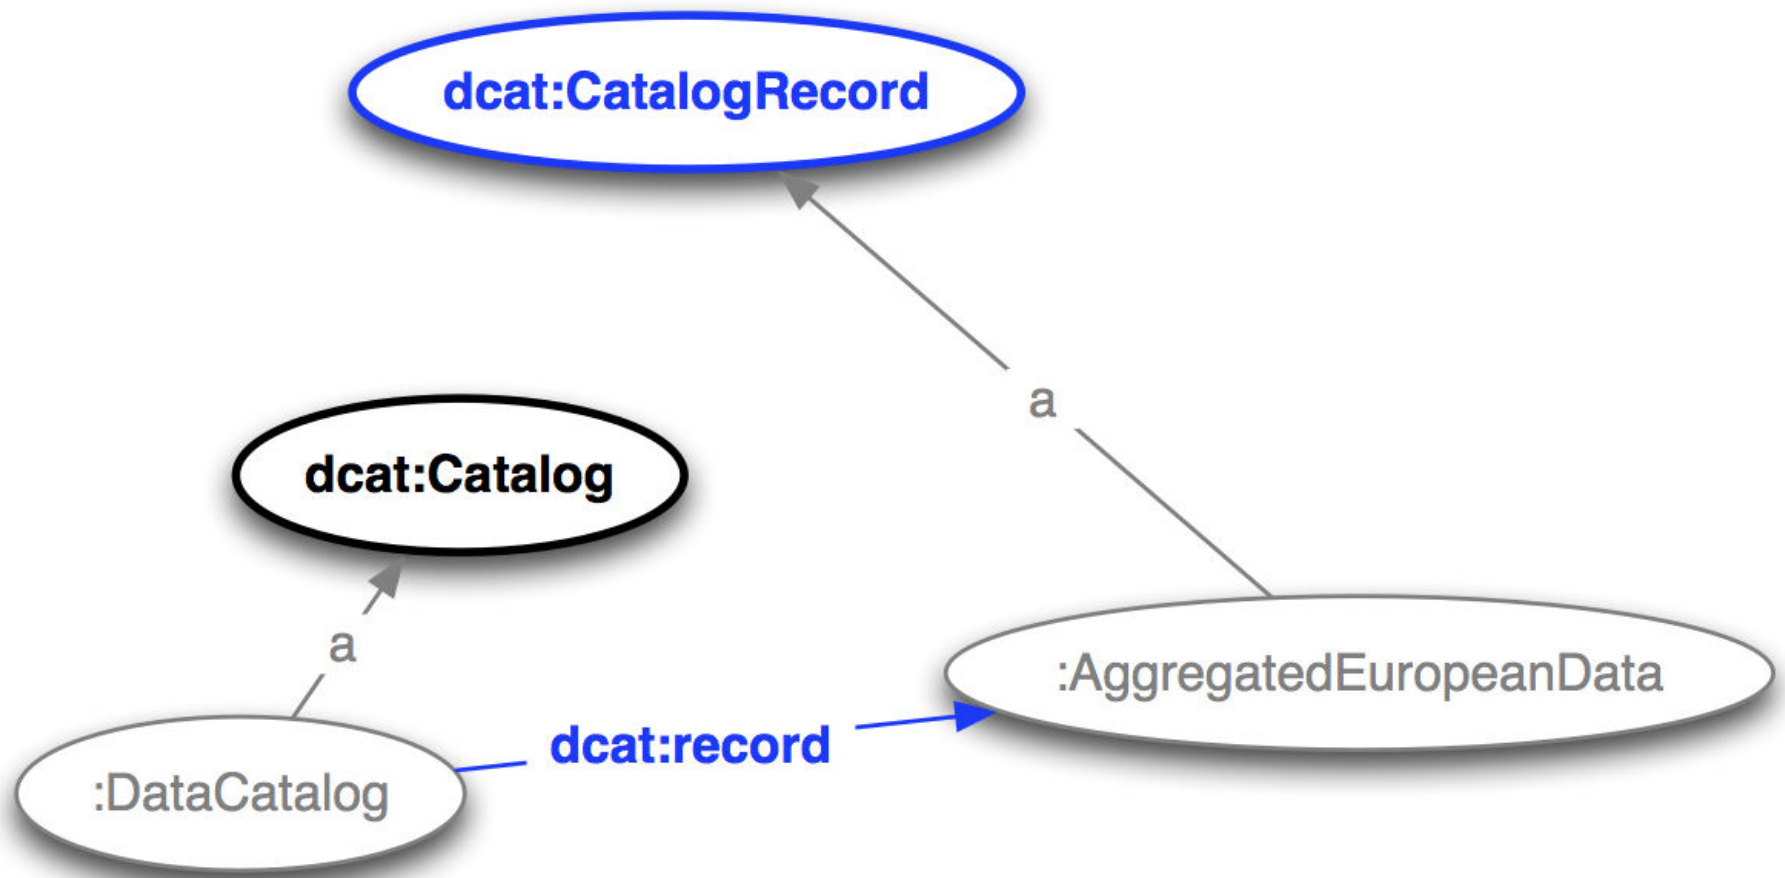

Which

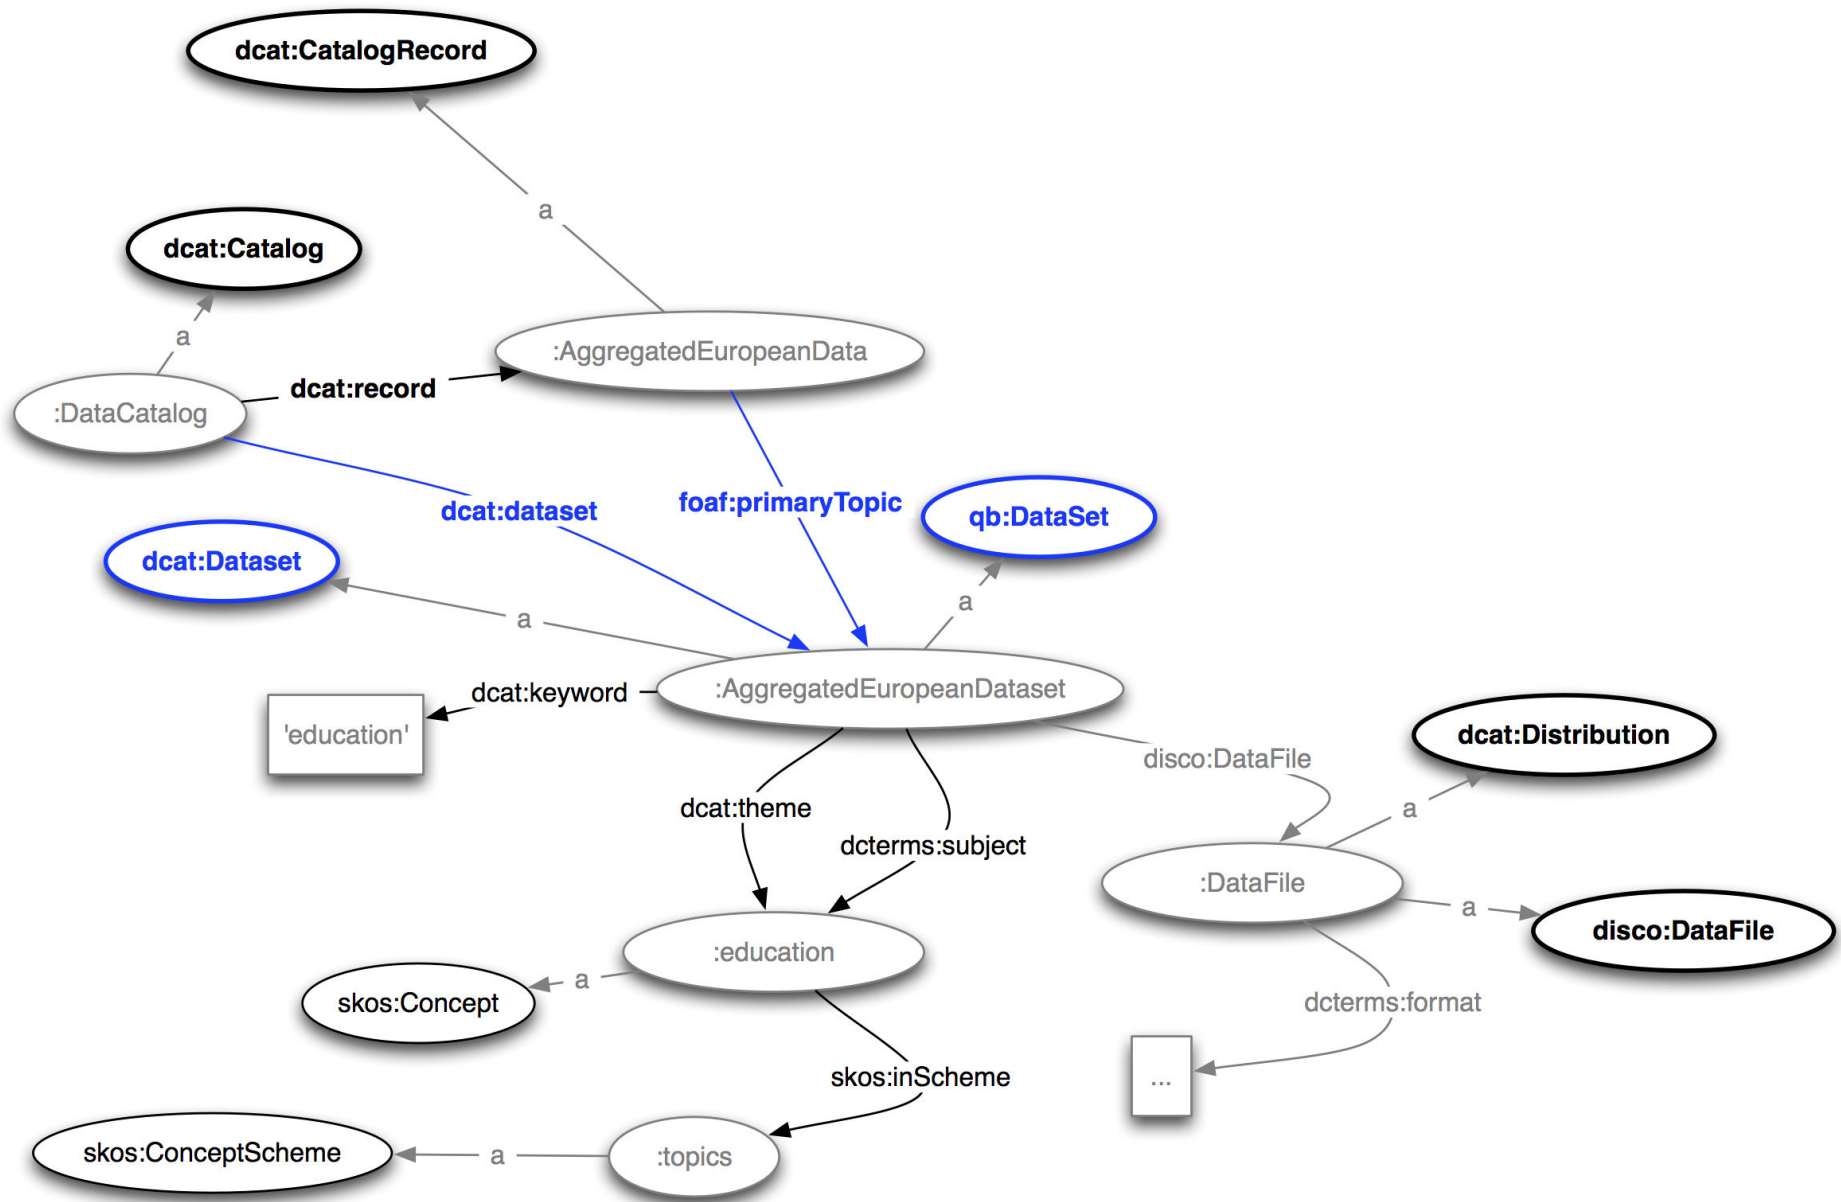

**aggregated data**

according to specific

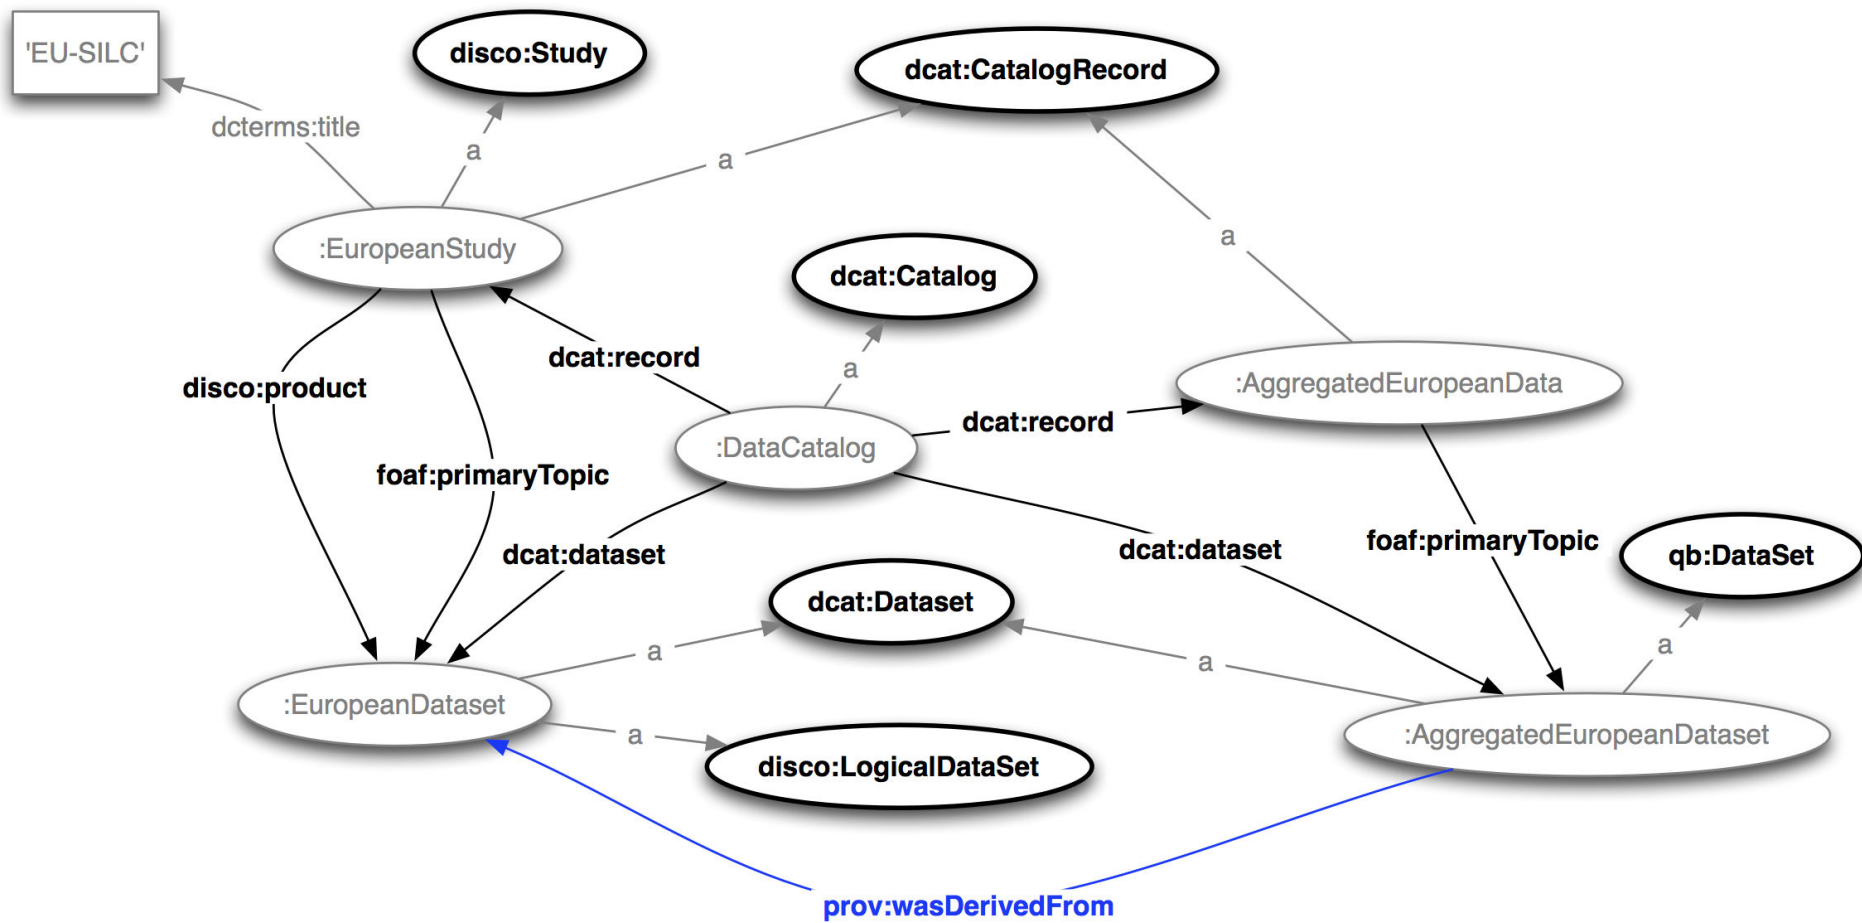

**metadata** does exist?

Which **datasets**  
are **associated** with  
**aggregated data?**

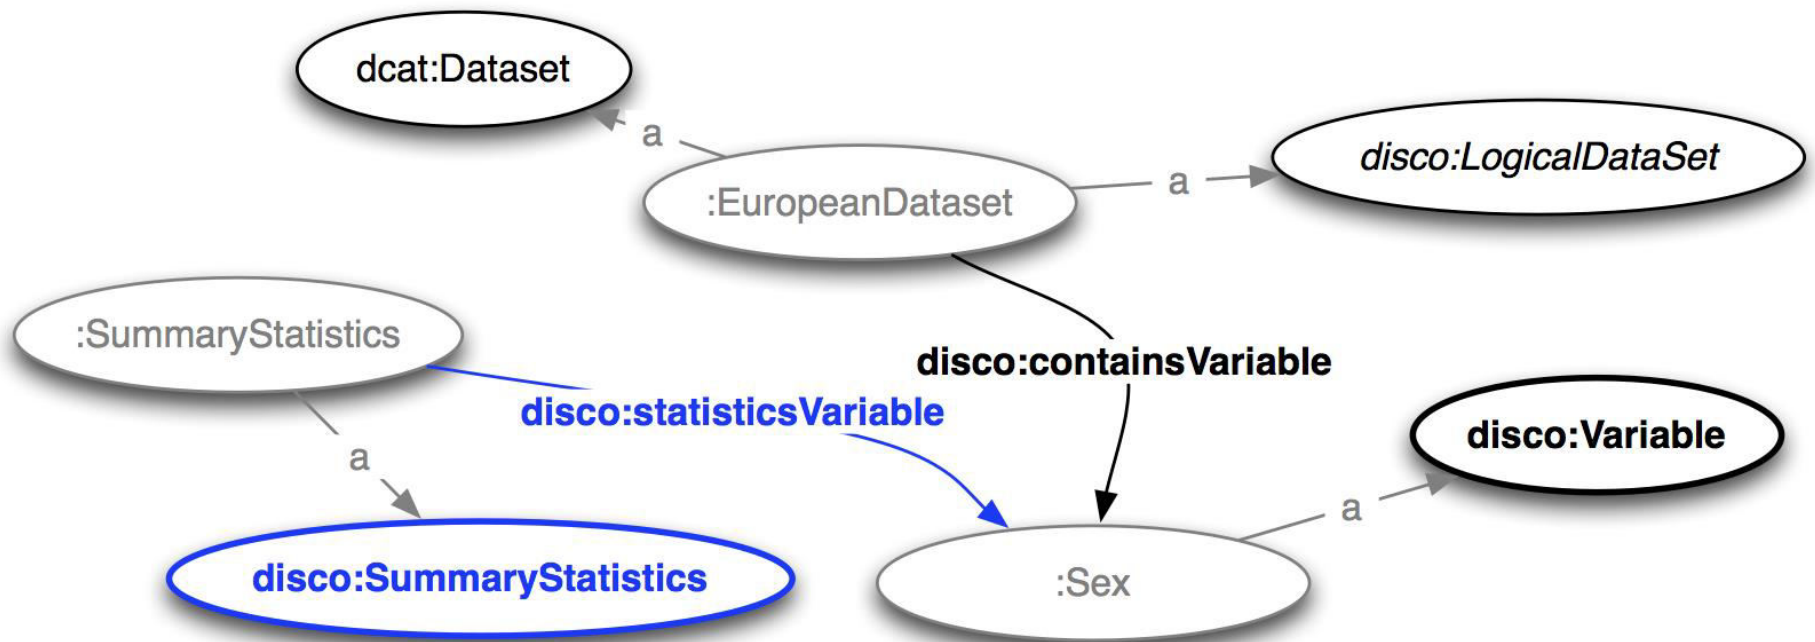

**From** which  
microdata datasets is the  
aggregated dataset  
**derived?**

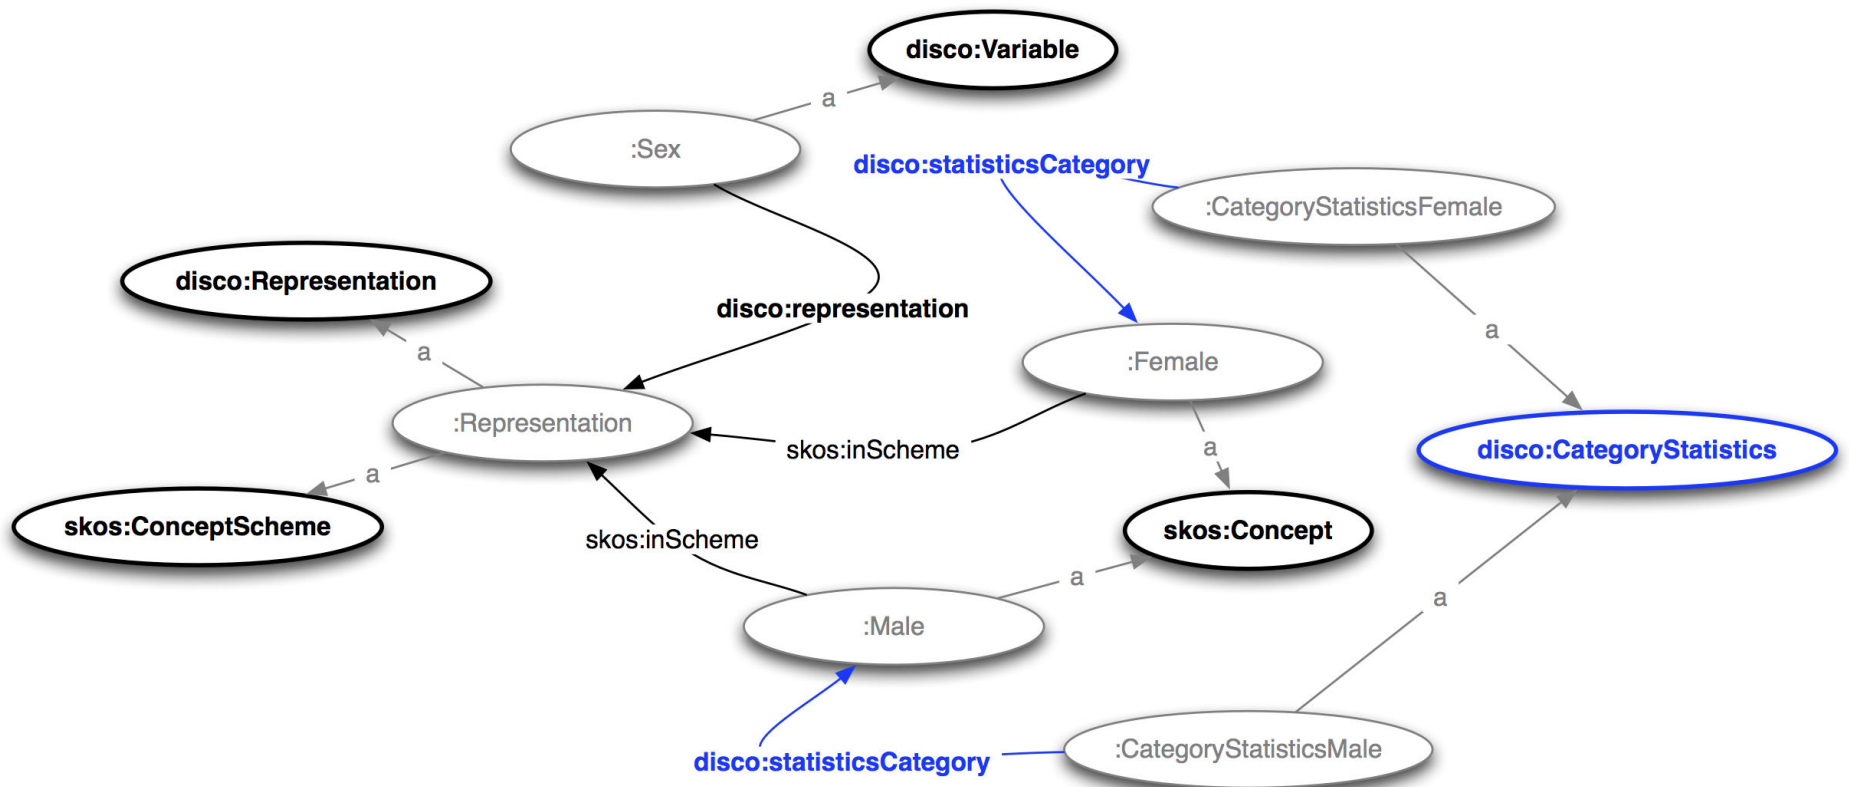

Which  
**summary**  
**statistics** does a  
**variable** have?

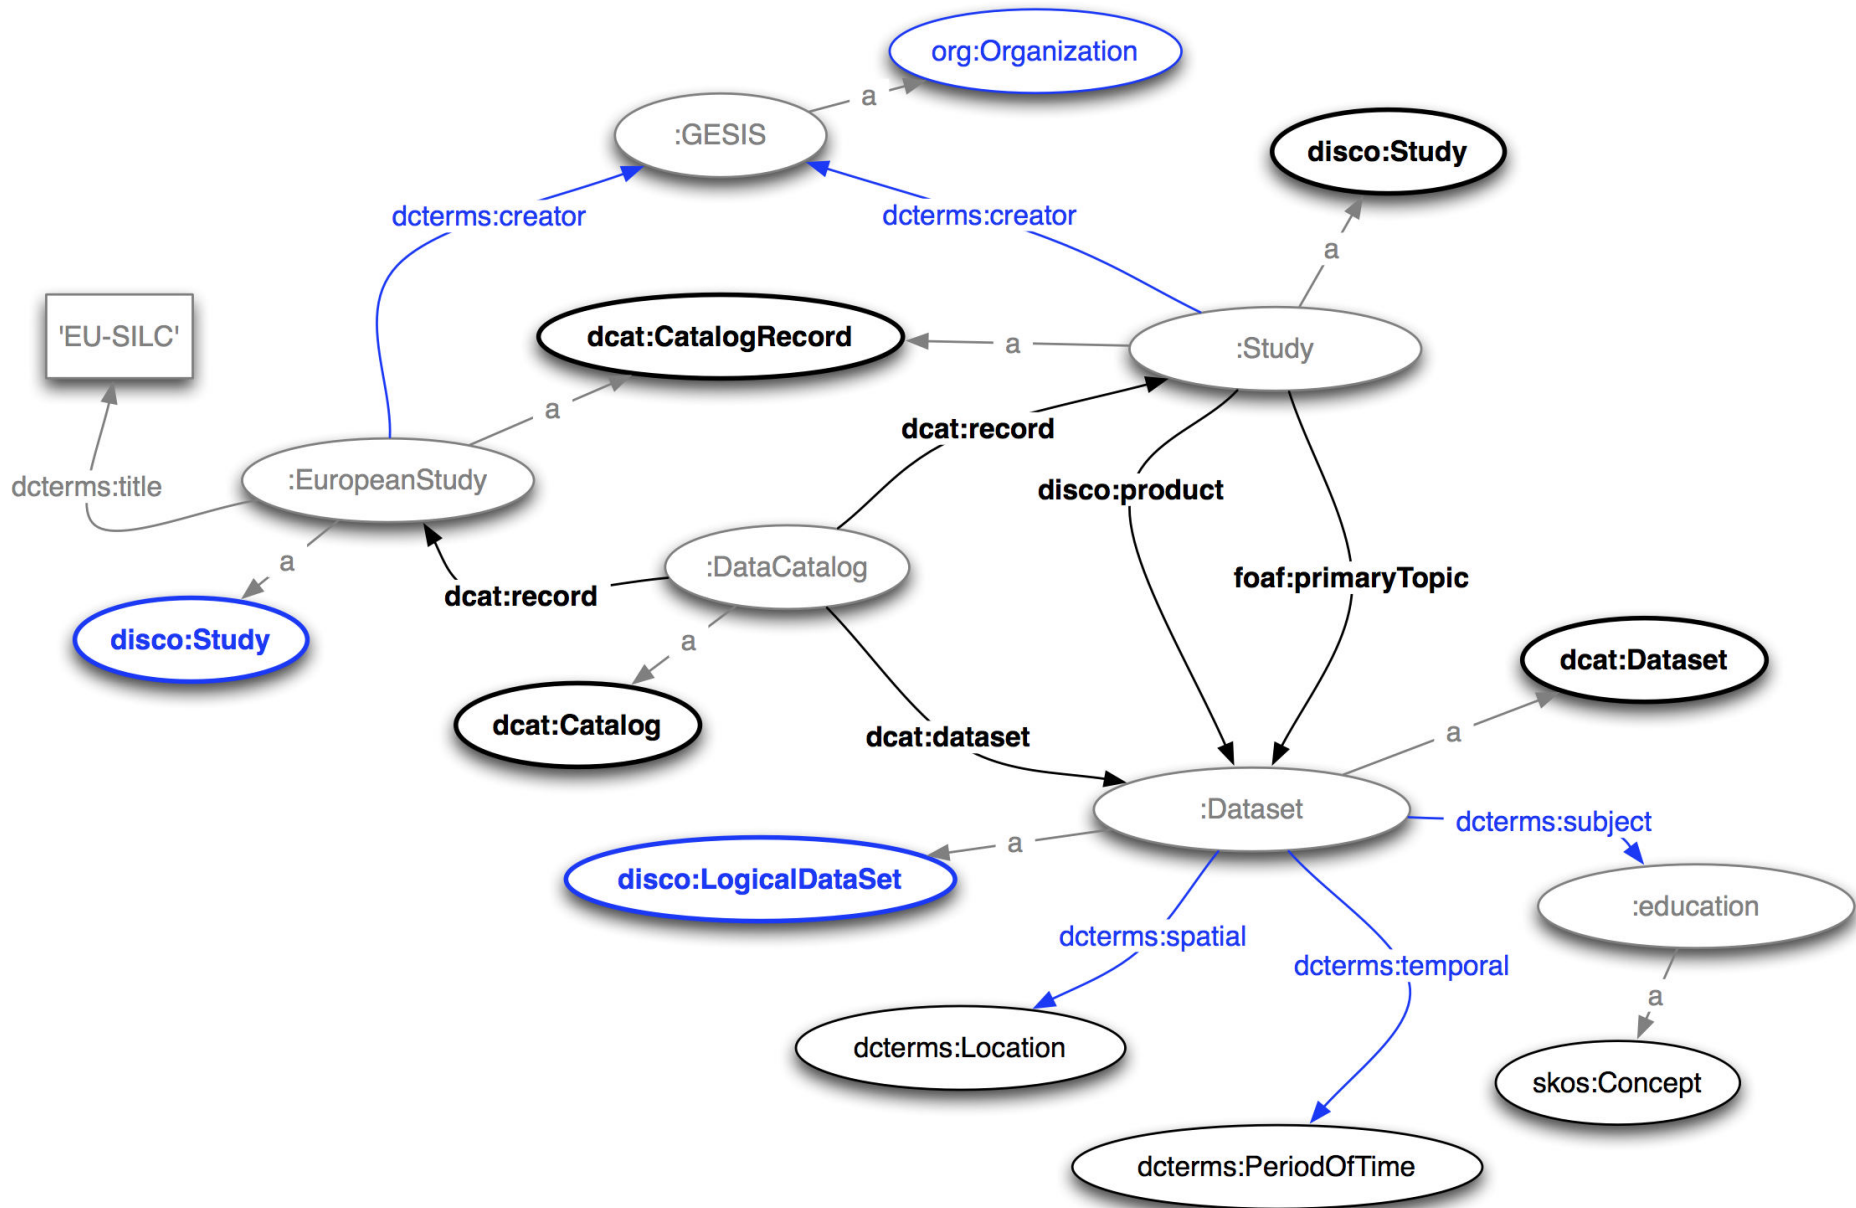

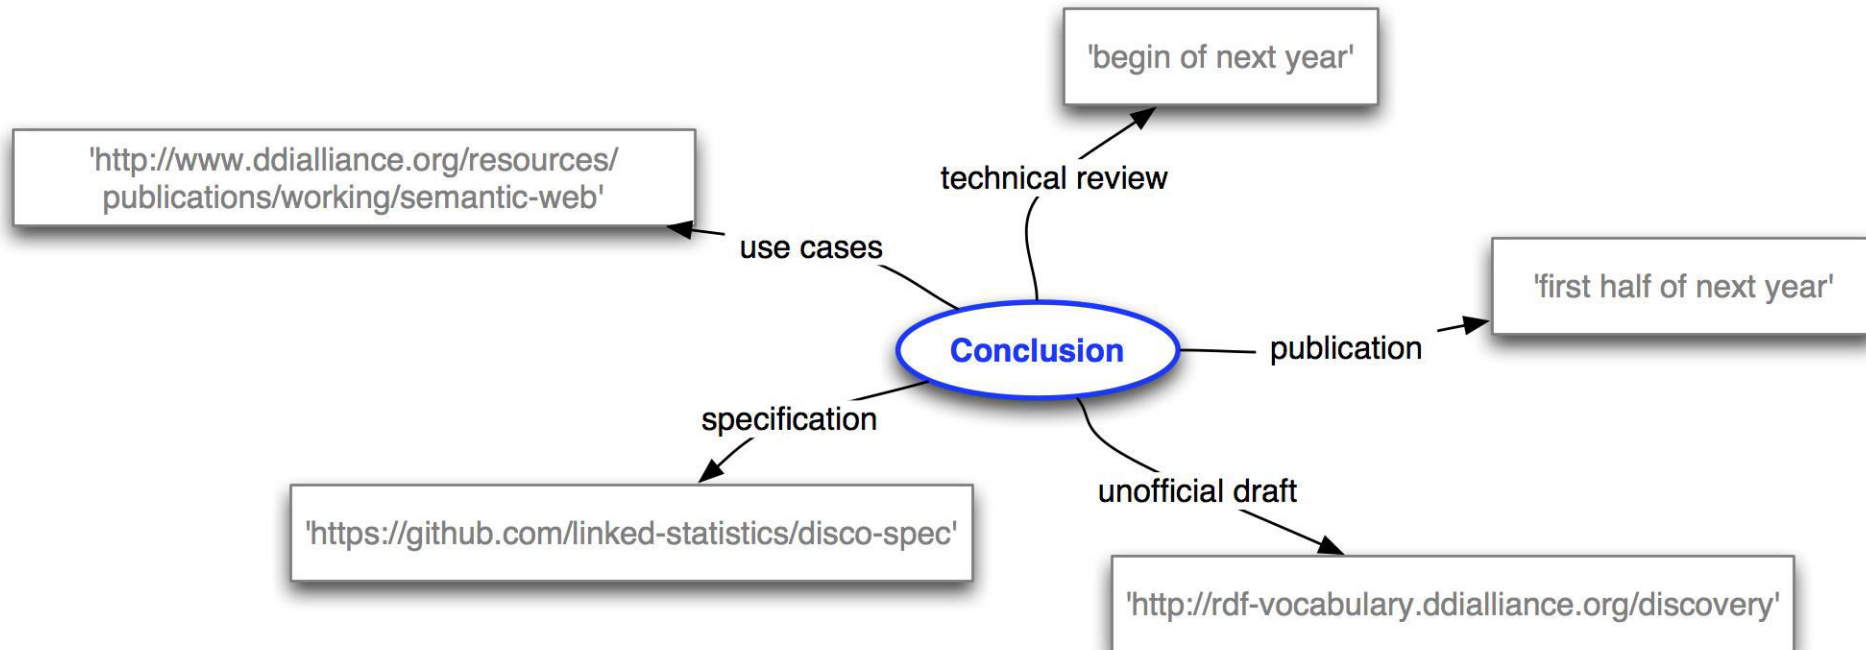

Which  
**category**  
**statistics** does a  
**variable** representation have?

Which **microdata**  
**datasets** are **created**  
**by** the research institute  
'GESIS'?

# Conclusion

# Thank you for your attention...
