# The Survey Cultural Changes

- The Netherlands Institute for Social Research (SCP)
- Trend study since 1975
- It measures changes in general opinions and attitudes of the Dutch population
- Annual till 1999, biannual since then
- Face to face and drop-off questionnaire
- Until 2002 International Social Survey Programme (ISSP) part of questionnaire

# 2001: Request to (predecessor) of DANS

### Question databank Cultural changes

- Documentation of every round
- Variables keep their variable name over time
- Variables can be part of blocks / sets
- Emphasis on question wordings
- Small changes in wordings can occur
- Answer categories
- Sample / routing information
- Interview instructions
- Concepts, keywords and notes

# Functionality

- Document question wordings of variables
- Document questionnaires
- Give an overview of the history of a variable
- Select variables
- Create a new questionnaire

## Disadvantages of this system

- Back office system
- Only available for researchers of the SCP
- No other variable information available
- File information in other system
- System needs update

## Cooperation of

- SCP
- Centerdata
- DANS

- Conversion of Question Databank Cultural Changes in an instance of Questacy (databank of Centerdata)
- Project will start in 2012

### The new SCP question databank

- Content of SCP question bank will be moved towards DDI 3.0
- Online resource, also available for wider research community
- Admin interface, SCP interface, Research interface
- Combination of question wordings, other metadata and data
- Datawarehouse
- In the future probably other surveys
- Pilot in April 2011, Project will start in 2012
- Shopping basket for variables, design tool for questionnaires

### **DDI** issues

- Versioning in Questacy
- Conversion
  - Moving content of several databases into Questacy
  - Conversion of NESSTAR DDI into DDI3
  - Combination of information
  - Advantage: variables have kept their name over time
